

USER EVALUATION

GET INVOLVED!

IQmulus Workshop
Bergen, 21 September 2016

Dániel Kristóf - Marina Maurin

The research leading to these results has received funding from the European Union Seventh Framework Programme (FP7/2007-2013) under *grant agreement* n° 318787.

Users in IQmulus:

- Involved in the formulation of requirements since the beginning
- Crucial in evaluation to have feedback and to optimize the system
- Define exploitation paths for the maintenance and further development of project results

ASSESSMENT OF THE FINAL IQMULUS SYSTEM

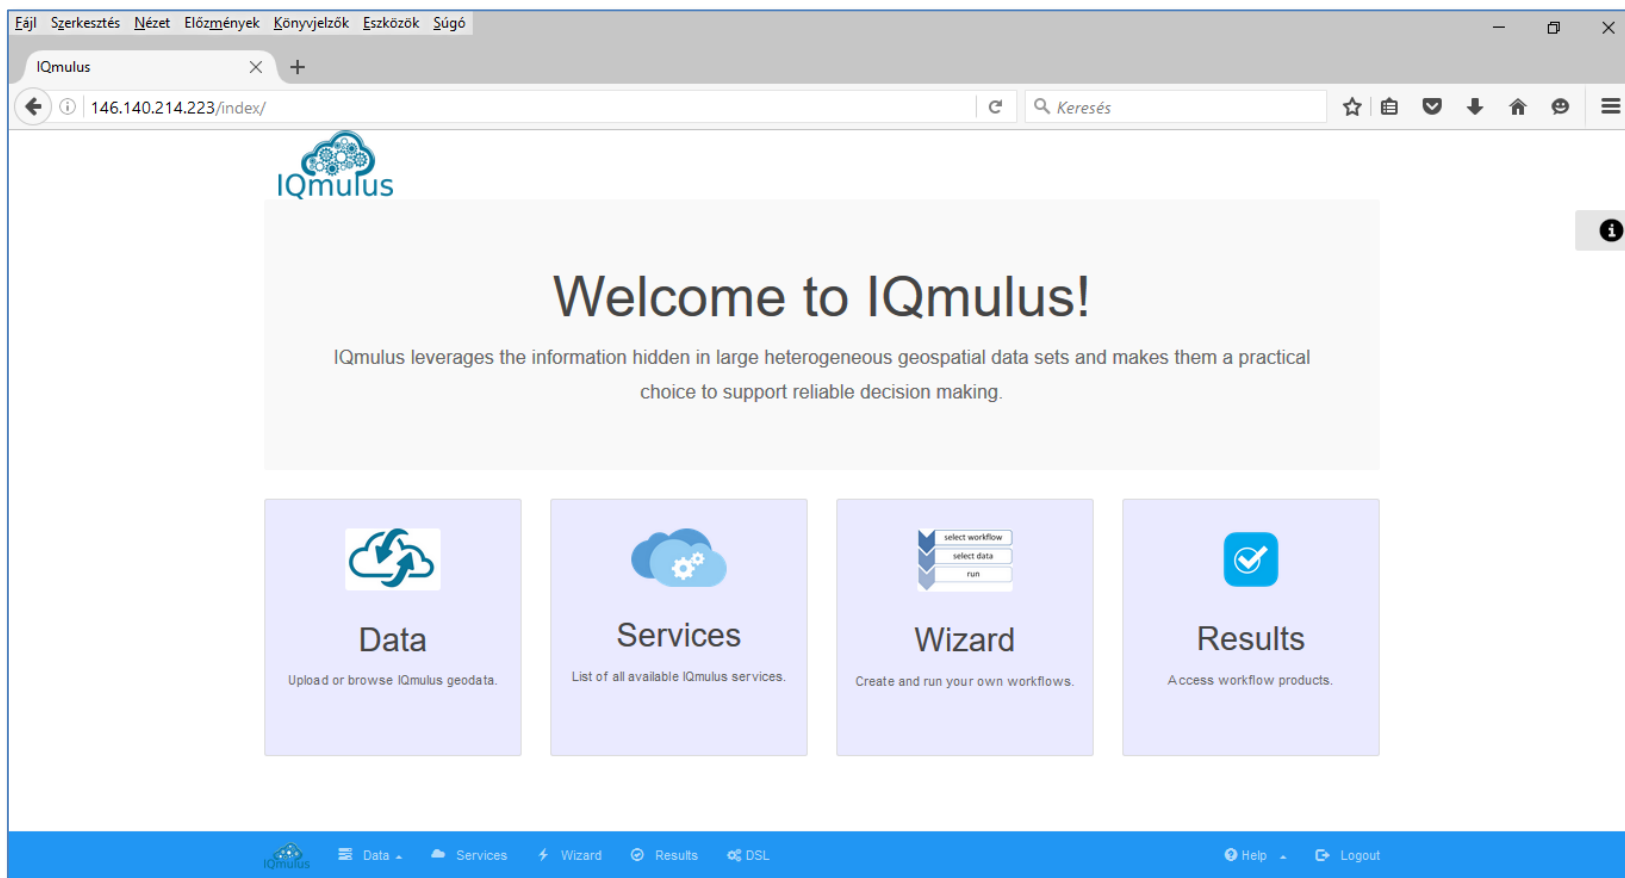

Internal evaluation

- Workflow owners to test functionality and usability
- To ensure that the workflow can be executed from the Graphical User Interface according to the workflow owner's needs
- Verify if workflow produces satisfactory results
- *Documentation: workflow-specific evaluation forms, „Remarks” document*

ASSESSMENT OF THE FINAL IQMULUS SYSTEM

Cross-check

- Consortium-internal users at partners not owning / knowing the workflow
- To check if externals can proceed with workflow execution
- Help and documentation
- *Documentation: workflow-specific evaluation forms, „Remarks” document*

ASSESSMENT OF THE FINAL IQMULUS SYSTEM

External evaluation

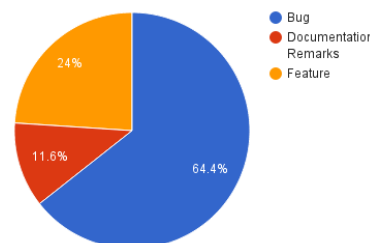

- Involvement of users:
 - Evaluation workshops organized by IQmulus partners
 - Key users via personal contact
 - Reaching out to a wider community, e.g. over the Web
- Tools:
 - Sandbox system – common usage during workshops or reserved for exclusive use for individual users
 - IQmulus Demo System (IQDS): a sandbox system with pre-installed operational workflows and sample data
- *Documentation: [external user evaluation forms](#)*

ASSESSMENT OF THE FINAL IQMULUS SYSTEM

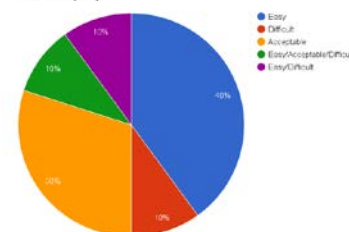

Analysis and exploitation of results

- Your feedback is appreciated and taken into account during the final project phase
- Input from questionnaires will be crucial to define and evaluate our final products
- Exploitation is largely affected by evaluation outcome
- Final document: D7.4 Assessment of Final IQmulus System and Training Material – to conclude all evaluation activities

Type of Issues

Count of Complexity

Thank you for your attention!

Awaiting you in our User Group 😊
